Recording...

Introduction

- Mouth reflects the health status of an individual.
- The color of oral pigmentation can vary depending on the quantity, depth or location of the pigment.
- There are various pigmented lesions present widely in an around the oral cavity which depicts whether they are benign or malignant.
- The Classification has been made to quantify the size, color, location of the lesion.

4/25/2024 Oral Pigmented Lesion 2

They had an individual, OK?
Yeah.

10:19 AM 4/25/2024

Sabtu, 27 April 2024 (dr. Agus Suharto, Sp.PA – Pemeriksaan Penunjang (biopsi & swap))
